

MEMO

TO: Regional Comprehensive Plan Task Force

FROM: Jacob Lieb, Lead Regional Planner, (213) 236-1921, lieb@scag.ca.gov
JiHong McDermott, Senior Regional Planner, (213) 236-1975,
mcdermot@scag.ca.gov

DATE: January 18, 2004

SUBJECT: Land Use and Housing Chapters

RECOMMENDED ACTION:

Provide input to staff regarding issues to be addressed in the Land Use and Housing chapters of the Regional Comprehensive Plan, and report to the Community, Economic and Human Development Committee.

SUMMARY:

At both the November 22, 2004 meeting and the December 15th meeting, the Task Force has discussed the organization and content of the Land Use and Housing chapters of the Regional Comprehensive Plan (RCP). Discussion is intended to focus on the existing SCAG policies regarding the subject areas and on the mandatory, advisory, and best practices that stakeholders can implement. At the previous two meetings, the Task Force discussed the concept of organizing the action plans in the chapter according to a matrix that would identify appropriate actions for local governments according to various characteristics. Further, the Task Force instructed staff to initiate a stakeholder roundtable with developers, development finance professionals, and others to give input on the chapter. SCAG staff is currently working with the Building Industry Association to plan a roundtable discussion addressing housing issues.

BACKGROUND:

In the previous two Task Force meetings, SCAG staff presented the currently adopted policies regarding the Land Use and Housing chapters of the RCP. The Land Use Chapter will describe the Growth Visioning land use principles, and SCAG's 2% strategy to resolve our regional challenges. The major land use principles in this chapter are:

- Development in existing urban centers and corridors,
- Focus growth along transit corridors and nodes to utilize available capacity.
- Effectively utilize major facilities, such as ports/airports.
- Improve jobs-housing balance.

SOUTHERN CALIFORNIA
ASSOCIATION of GOVERNMENTS

MEMO

The housing chapter will describe current conditions and the regional housing issues associated with growth, and will form a set of action plan based on the adopted policies.

Since the 2000 census, 1,226,000 people have been added to the region, but only 208,700 units have been built to accommodate this population growth according to data from California Department of Finance, as of January 1, 2004. Among the 208,700 new units built, only 56,300 units are multi family housing, which constitutes about 27% of total new units. With the fast growing regional population, regional housing supply can not meet the regional housing demand. When demand exceeds supply, housing prices are pushed up, which makes housing less and less affordable.

Increasing housing supply, especially affordable housing supply is the only way to solve the regional housing challenge. Based on existing land use and housing policies, staff is looking for directions from the RCP Task Force to build an advisory action plan to resolve the housing shortage issue in our region.

RCP LAND USE AND HOUSING CHAPTERS

Goal Statement and Summary

Goal Statement

SCAG's land use policies promote specific development patterns in order to achieve clear objectives. The development pattern proposed by SCAG is laid out in the Compass Growth Vision, and to a lesser extent in the 2004 Regional Transportation Plan. These documents also lay out several distinct policy objectives for the region, notably within the Compass Growth Principles. The strategy, in very brief summary, is that the region should focus future growth and development into specified strategic growth areas (2% Strategy Areas). Beyond that, there are a number of other strategies aimed at promoting high quality, vibrant communities. The region's overriding objectives, or interest in these areas are summarized as follows:

- Accommodate Growth
- Maximize efficiency
- Utilize transportation capacity
- Promote Choice
- Alleviate housing shortage
- Balance Jobs and housing
- Maintain, Improve Quality of Life

Policies:

The full body of policy related to land use and housing is included in the Comprehensive Policy Catalogue. The sources for these policies, with few exceptions are:

Compass, especially Growth Principles – Livability, Sustainability, Mobility, and Prosperity;

2004 RTP, sets forth land use and development assumptions to achieve transportation performance goals.

Action Plan

The action plans for Land Use and Housing will be built on three tracks, as follows:

1. The action plan matrix is preliminary and has been prepared as a parallel effort to the Compass Implementation program. It identifies characteristics of communities and assigns appropriate actions for each. The actions included are to be viewed as ideas for discussion and can be edited and modified in any number of ways. The actions identified cover a range of activities based context, and will be refined based on the progress of the Compass program.
2. Additional action options may be added based on dialogue with the building industry and other stakeholders. Other forums and discussions may be held as deemed necessary.
3. As discussed at the December Task Force meeting, Form-Based Zoning will be included as a recommended action for a variety of community types.

Existing Conditions:

Staff will prepare an existing conditions section which analyzes the reasons existing development patterns and housing goal attainment. This material will be reviewed by the Task Force when a draft chapter is completed.

SCAG/BIA Workshop – Proposed Agenda
Land Use and Development/Regional Comprehensive Plan

1. Regional Land Use Policy - SCAG present
 - a. Preferred Development
 - b. Principles
 - c. Objectives
2. 2% Areas – SCAG present
 - a. Characteristics
 - b. Development pattern
 - c. Obstacles
3. Solutions - Discussion
 - a. Shared Objectives
 - b. Separate Objectives
 - c. Preferred local practice/actions
 - d. Preferred regional practice/actions
 - e. Preferred State practice /actions

SCAG/BIA Workshop Proposed Agenda Attachment 1 GROWTH VISION/GROWTH PRINCIPLES

In June 2004, SCAG's Regional Council adopted the Compass Vision, a new vision for Southern California, to guide its plans and programs. Driven by four key principles, **mobility, livability, prosperity and sustainability**,

Principle #1: Improve mobility for all residents

- Encourage transportation investments and land use decisions that are mutually supportive
- Locate new housing near existing jobs and new jobs near existing housing
- Encourage transit-oriented development
- Promote a variety of travel choices

Principle #2: Foster livability in all communities

- Promote infill development and redevelopment to revitalize existing communities
- Promote developments that provide a mix of uses
- Promote "people-scaled," pedestrian-friendly communities
- Support the preservation of stable, single-family neighborhoods

Principle #3: Enable prosperity for all people

- Provide a variety of housing types in each community to meet the housing needs of all income levels
- Support educational opportunities that promote balanced growth
- Ensure environmental justice regardless of race, ethnicity or income class
- Support local and state fiscal policies that encourage balanced growth
- Encourage civic engagement

Principle #4: Promote sustainability for future generations

- Preserve rural, agricultural, recreational and environmentally sensitive areas
- Focus development in urban centers and existing cities
- Develop strategies to accommodate growth that use resources efficiently, eliminate pollution, and significantly reduce waste
- Utilize "green " development techniques

SCAG/BIA Workshop Proposed Agenda Attachment 2 COMPASS STRATEGIES

The Compass Vision emphasizes the following strategies to better coordinate land use and transportation decision-making:

- Infill development in existing urban centers and along major transportation corridors
- Target growth around existing and planned transit stations to utilizing available capacity. (Maximizing transit facilities, ex. transit oriented development) Utilizing major transportation facilities, such as port and airports.
- Improve job housing balance. For example: create significant areas of mixed-use development and walkable communities
- Preserve existing open space and stable residential areas

SCAG/BIA Workshop Proposed Agenda Attachment 3 REGIONAL OBJECTIVES / INTERESTS

- Accommodate Growth
- Maximize efficiency
- Utilize transportation capacity
- Promote Choice
- Alleviate housing shortage
- Balance Jobs and housing
- Maintain, Improve Quality of Life

SCAG 2005 RCP

Preliminary Land Use Action Matrix by Local Characteristic

<i>Characteristic/Location</i>	<i>Potential Action</i>	<i>Tools</i>
City center	Dense, mixed use downtown	
Corridor	Focus, intensify mix use development and housing	
Corridor	Preserve nearby sensitive areas, existing neighborhoods	
Corridors	Focus mixed use growth along these corridors with villages at transit nodes where the corridors intersect. Enhance surrounding neighborhoods with compatible infill.	
Corridor and Station community	Focus mixed use development with villages at transit stops.	
Corridor and Station community	Focus mixed use development close to commuter and light rail stations	
Mainstreet/Transit Corridor	Focusing growth along key corridors with mixed use, village areas around transit nodes.	
Mainstreet/Transit Corridor	Infill underdeveloped areas	
Mainstreet/Transit Corridor	Preserve existing neighborhoods	
Mainstreet/Transit Corridor	Focusing the more dense growth on areas closest to highway interchange with village development around BRT station. Keep development in flat areas to preserve hills.	
New neighborhood areas	Utilize flatter, lower elevation areas to accommodate new housing - decreasing pressure for developing hillsides.	
New neighborhood areas	New neighborhoods and infill in existing low density areas, keeping development close to major roads and existing towns to preserve rural areas and in flat areas to preserve hills.	
New neighborhood areas	Focus infill and high-density residential in undeveloped areas	
Potential new transit station area	Focus mixed use development to create a station village around a suggested new commuter rail station.	
Potential new transit station area	Focus mixed use development close to core near potential future high-speed rail station. Encourage compatible infill in existing neighborhoods and mixed use development.	
Potential new transit station area	Focus mixed use development to create a station village around a suggested new commuter rail station.	

SCAG 2005 RCP

Preliminary Land Use Action Matrix by Local Characteristic

Rail transit station area and Transit Corridor	Mixed use and residential development Focused on the transit station area.
Regional Center	High density downtown development with intense mixed use and employment filling underutilized areas.
Regional Center	Intense mixed use development downtown and along major corridors, compatible infill throughout grid. Avoid developing any sensitive areas.
Regional Center	Create higher density villages around rail stations and transit nodes, focus mixed use in all current commercial areas, encourage compatible infill in existing neighborhoods.
Regional Center	Focus higher density mixed use growth in central area, around rail stations, and around airport. Preserve existing neighborhoods and add compatible infill.
Regional center	High density mixed use development, infill, with the highest densities along the rail line and the potential rapid bus line
Station area	Focus mixed use development to create a station village around a commuter rail station.
Station area	Focus mixed use development to create a station village around rapid bus station
Station area	New development throughout area, protecting sensitive areas
Station Area	Industrial and mixed use area along rail corridor, village area around any stations
Station area and corridor	Village growth around commuter rail station. Mixed use along corridors, preserve existing neighborhoods.
Station area and corridor	Focus village development around commuter rail station and along corridor
Station Area and Corridor	Mixed use development near rail corridor and major streets, village development around stations.
Station Area and Corridor	Mixed use village development
Station areas	Focus mixed use development to create a station village around metro station.
Station areas	Focus mixed use development to create a station village around both LRT and commuter rail stations.
Station areas and corridors	Focus mixed use development to create a station village around a commuter rail station.

SCAG 2005 RCP

Preliminary Land Use Action Matrix by Local Characteristic

Station areas and corridors	Create village around rapid bus intersection and focus mixed use along the two corridors.
Town Center	Focus mixed use and other denser development
Town center and station area.	Mixed use development around rail station.
Urban neighborhood	Medium residential with multi-family
Urban neighborhood and transit station	Focus mixed use development around rail stops, compatible infill in surrounding areas.
Urban neighborhood and transit station	Focus development along the rapid bus corridors with villages at nodes, compatible infill housing in the rest of the neighborhood.
Urban neighborhood and transit station	Focus mixed use development along major streets with village around rapid bus station
Urban neighborhood and transit station	Focus intense mixed use development in village form around commuter rail station, focus other fairly dense development along corridors and throughout grid area.
Urban neighborhood and transit station	Focus commercial and mixed use development around commercial core of area and around transit nodes.
Urban neighborhood and transit station	Focus mixed use and employment to rail station areas.
Urban neighborhood and transit station	Focus mixed use development close to rapid bus stops, preserve character of surrounding area.
Urban neighborhood and transit station	Focus development to flat area close to preserve hills.
Urban neighborhood with small scale corridor	Infill development, mixed use where possible.
Urban neighborhood with small scale corridor	Focus mixed development along major corridors while preserving existing neighborhoods while adding compatible infill.
Urban neighborhood with small scale corridor	Preserve character of existing neighborhoods, keep more dense developments close to major corridors, compatible infill in existing neighborhoods.
Urban neighborhood with small scale corridor	Focus mixed use development to major streets and infill preserving neighborhood character on side streets.
